

TRAVEL COMMUNICATION CARD

COMPLIMENTS OF THE UNITED OSTOMY ASSOCIATIONS OF AMERICA, INC.

This is provided to travelers in order to simplify communication with federal Transportation Security personnel and airline flight attendants, at those times when you wish or need to communicate in a non-verbal way, as is your legal right.

This is not a “certificate” and it is not a “pass” to help you avoid screening.

Please print out on any weight of paper you wish, trim to ‘wallet’ size and laminate if desired. The blue color is important, as it is a card developed by the TSA so their own officers will recognize it and be guided to treat the traveler with discretion and sensitivity.

If laminated in a double-side manner, it can be used ‘blue side out’ during security screening, and the white side out when communicating with airline personnel.

JUST PRINT, CUT OUT, FOLD, AND PUT WITH TRAVEL DOCUMENTS

OUTSIDE LEFT—for use during screening before boarding. Intended for the passenger to show the TSO at the beginning of personal screening - before being patted-down or entering a full-body scanner.

OUTSIDE RIGHT

Notification Card

I have the following health condition, disability or medical device that may affect my screening:

(Optional)

I understand that presenting this card does not exempt me from screening.

TSA respects the privacy concerns of all members of the traveling public. This card allows you to describe your health condition, disability or medical device to the TSA officer in a discreet manner. Alternate procedures which provide an equivalent level of security screening are available and can be done in private.

Presenting this card does not exempt you from screening.

~ ~ GOTTA GO NOW ~ ~ RESTROOM ACCESS

The cardholder contains body waste in an OSTOMY DEVICE (stool/urine) and/or carries pouches and related supplies and/or a catheter to manage personal hygiene. S/he needs access to the restroom now in order to empty the pouch — this is critical for the cardholder’s well-being and public sanitation.

TRAVELER’S COMMUNICATION CARD

Provided by the UOAA, a volunteer-based health organization dedicated to providing education, support and advocacy for people who have or will have intestinal or urinary diversions.

INSIDE LEFT - this is designed to show in the event it is needed while in flight and the pilot has chosen to limit restroom access—or when passengers are supposed to be belted in during turbulence. You might wish to show it to a flight attendant during boarding and/or getting settled, so he or she will be mindful of your situation.
